

Meet EWI's Nondestructive Evaluation Team

EWI's Nondestructive Evaluation Team uses state-of-the-art equipment, innovative methods, and advanced mathematical modeling to facilitate inspection and assessment of complex materials and components and help manufacturers tackle their toughest inspection challenges.

Evgueni Todorov
Nondestructive Evaluation
Technology Leader, Level 3 ET, UT

Roger Spencer
Ultrasound and Radiography,
Level 3 UT, RT, ET

Shaun Freed
Microstructure UT, Automation
of NDE and Computational
Modeling

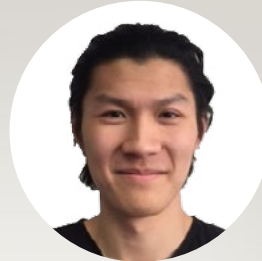

Ruth Sunderman
Ultrasound and
Radiography, Level 3 UT

Alex Kitt
Computed Tomography
(CT), Optical Metrology, and
Vision Systems

Dan Kmiotek
CT, Metallography

Chris Lee
Automated Defect
Recognition

Have a question? Contact us today.

EWI stands at the forefront of advanced NDE techniques, and we continually update our capabilities to assure the highest standards of quality. If you are interested in leveraging the experience of our team of experts for your next project, please contact **614.688.5000** or **info@ewi.org**.
